

PRODUCT DATA

NEAT CUTTING OIL

DESCRIPTION

Neat Cutting Oil is a high performance cutting oil.

APPLICATION

For the machining of low and high alloy steels, tough steel alloys, cast steel and cast iron. It is suitable for all milling, turning, thread cutting or drilling application.

CHARACTERISTICS

High performance cutting oil manufactured from carefully selected neutral mineral oils and a high-tech combination of synergistic EP additives and other selected additives.

This product is chlorine free, produce nearly no oil fog (mist) and has no bad smelling odor. It is suitable for non ferrous metals.

Neat Cutting Oil makes it easy to keep to tolerances, extend the tool life and give top quality metal surface finish.

- Low disposal cost because they are chlorine free.
- Excellent corrosion protection.
- Multipurpose usage

SPECIFICATIONS

Density @ 20 °C	0.875 g/cm3
Viscosity @ 40°C	32

PACKAGING

Neat Cutting Oil is available in the following pack sizes:

210L
20L.
