

# PRODUCT DATA

## SPECTRA BRAKE FLUID DOT 4

### DESCRIPTION

Spectra Brake Fluid Dot 4 is a high performance brake and clutch fluid and blended from polyglycols. Can be used in both disc and drum brake fluid systems which require SAE J 1703 OR DOT 4 types of fluid.

### APPLICATIONS

- Used in disc and drum brake systems
- Hydraulically operated clutch systems
- Commonly used in racing, rallying and other severe applications such as in motorcycles, cars, trucks, and earth moving equipment.

### BENEFITS

- Safe and effective operation of brake and clutch systems.
- Special corrosion inhibitors and anti-oxidant additives are incorporated.

### TYPICAL DATA

ER Boiling point (dry)	C	275
ER Boiling point (wet)	C	175
Ph (50% aqueous/ethanol solution)		8
Flash Point (COC)	C	154

### PERFORMANCE LEVEL

Spectra Brake Fluid Dot 4 meets the requirements of the following:

- Dot 4
- SAE 1703
