

PRODUCT DATA

LITHIUM EP2 GREASE

DESCRIPTION

Lithium EP2 is a premium quality multi-purpose grease blended from highly refined base oils and incorporating carefully selected multi functional extreme pressure additives.

BENEFITS

- Wide range of operating temperature of between -30°C and +130°C.
- Outstanding load carrying capacity enhanced by carefully selected EP additives.
- Excellent resistance to water wash-out
- Superior protection of bearings against corrosion and oxidation.
- Excellent mechanical stability

APPLICATIONS

- Designed for use in highly loaded plain and roller bearings found in mining, quarrying and construction industries.
- Automotive wheel bearings for all types of vehicles.
- Suitable for electric motors, water pumps and general automotive and industrial applications.
- Can be used in centralized lubrication systems.

TYPICAL PHYSICAL CHARACTERISTICS

Conforms to SABS specification	1014
NLGI Classification	2
Colour	Brown
Work Penetration @25°C	265-295
Drop point °C	>180
Timken OK load Kg	>27
Oil Viscosity at 40°C	200
Recommended Temp Range	-30C to130°C
